Dear Parent,

Welcome to Monterey Zoo's walking "ZOO QUIZ", a tool we feel will make your child's experience at Monterey Zoo much more fun, challenging, entertaining and best of all, educational.

All the answers to this quiz are located on the signage in front of our habitats or within the animal's habitats themselves but all are also welcome and encouraged to ask the keepers for a clue if it helps. Depending on your child's age, your help could be necessary on some questions or to read and explain some of the verbage on the signs.

Be sure to share this activity with your schools curriculum coordinator as your visit coupled with this quiz might very will fulfill some if not several of your child's curriculum requirements in a subject.

If you and/or your child have a mobile device, BE SURE TO LOOK for the QR Codes on some of the signs. They will enable you and yours to watch a fun-informative video about the animal you are seeing. Ask a keeper for help if you need it.
Look for the answers on the signs outside each animal habitat and within the actual habitat. Please don't hesitate to ask a Monterey Zookeeper for a clue... but most of all, have fun!

1. Where do Sulcata Tortoises come from? (circle one)
   - Africa
   - China
   - Hawaii
   - Los Angeles
